

Sakia.org

Sakia.org is a widely used free and independent information and communication service in the area of 'land and water'. It is well established since 1994/95 and frequently visited by professionals from the national and international arena.

Its objective is to build capacity in science and engineering by means of information-sharing through publicly accessible quality information, free on-line applications and professional communications and discussions.

Technically it is placed in the wider water sector with the main focus on agricultural water management, irrigation, drainage, hydrology and related fields.

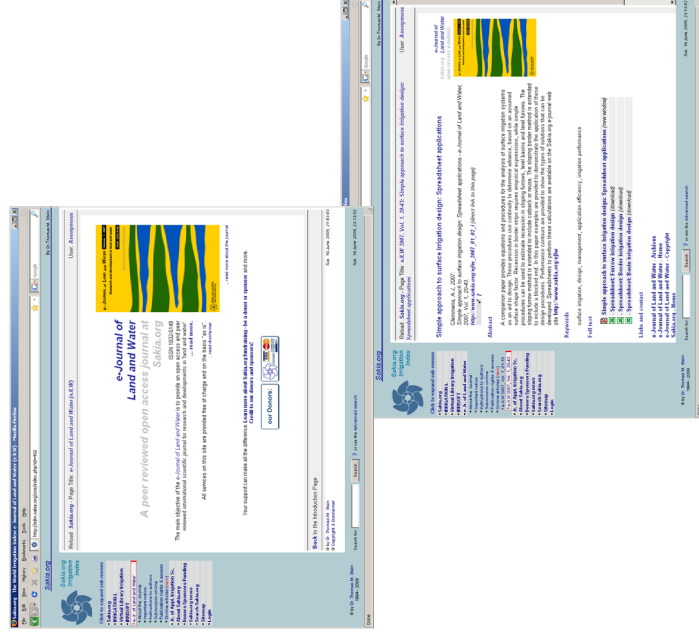

These technical areas are supported through Sakia.org services such as:

- **IRRIGATION-L** - professional discussions on irrigation and hydrology related topics;
- **VL Irrigation & Hydrology** - quality full text information on-line accessible for free;
- **e-Journal of Land and Water** - professional open access publishing on-line;
- **IRRISOFT** - quality software information and on-line applications, and
- **Miscellaneous services** - e.g. newsletter, Sakia.org e-publish, and more.

e-Journal of Land & Water - peer reviewed & open access

Building capacity in science and engineering by means of professional information-sharing.

Name

The 'e-Journal of Land Water' (ISSN 1832-5149) is an open access and peer reviewed, international scientific journal for research and developments in land and water. It is published by *Sakia.org e-publish*.
<http://www.sakia.org/ejw/>

Objective

The objective of the *e-Journal of Land and Water* (eJLW) is to publish scientific papers of international significance covering basic, applied and strategic research in the area of land and water. The journal is being published under the general principles of open access, which means the articles published in it will be available on-line free of charge to the end user.

Description

Technically the *e-Journal of Land and Water* is focused on the integration of the various aspects of land and water management and conservation at a range of scales. While the journal provides an ideal framework for research topics of multi-disciplinary nature, it equally allows to cover specific components from the wider land and water arena:

- Irrigation science, technology and management;
- Drainage and land reclamation;
- Catchment management;

- Soil and water conservation;
- Community, social and economic aspects of land and water;
- Sustainability issues;
- Policy and planning.

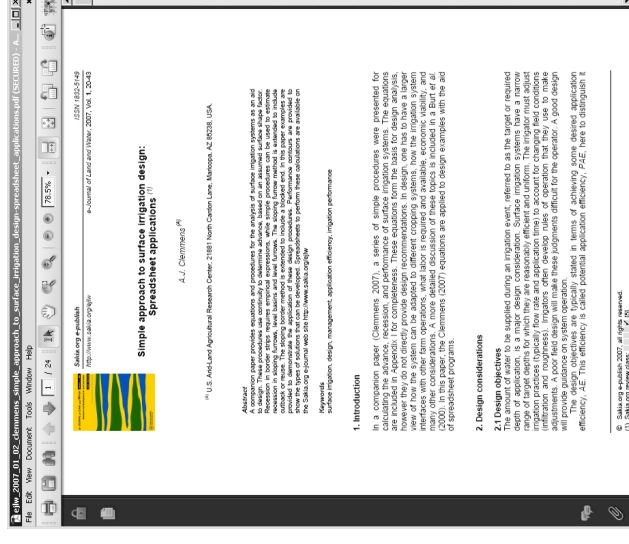

Submission and review

Manuscripts are only accepted when submitted electronically through the authors gateway at the eJLW website. Detailed information and instruction to authors are found on-line.

Submitted manuscripts are peer reviewed by independent editors, scientist and experts of proven technical and scientific expertise. All manuscripts are handled by the Editor-in-Chief.

Sakia.org open access licence

"By accepting the manuscript, *Sakia.org e-publish* acquires the unrestricted copyright on the manuscript. It protects the authors' rights while providing free and unimpeded access to the full text source. The 'Sakia.org Open Access License' grants permission to individual users to freely access, download, print, extract, archive, crawl, index and distribute articles for personal use only. The distribution of small numbers of copies are allowed for academic, scientific or educational purposes. This also includes the passing on of copies to colleagues as long as no mass distribution is being performed and/or a commercial benefit is sought or fees are charged. All the work and authors have to be credited and cited appropriately and the source to be named. No mass distribution, selling or re-packaging of its paper or electronic form is allowed. No mirroring and mass downloads for redistribution, repackaging are permitted without prior permission of the *Sakia.org* copyright holder."

e-Journal of Land and Water article as published on-line (pdf).

Access to publications

All articles published in the *e-Journal of Land and Water* are accessible for free from the journals website. Papers are published in full text including all supplemental materials. Copies of all papers are archived at the National Library of Australia.

Processing and page fees

Processing fees apply on submission and are non-refundable. Page fees will be charged to authors or their organisation if the manuscript has been accepted for publication. Details on procedures and rates are published on-line. Please contact the Editor-in-Chief, as listed on the back of this brochure, for any further assistance.
