

Sakia.org

Sakia.org is a widely used free and independent information and communication service in the area of 'land and water'. It is well established since 1994/95 and frequently visited by professionals from the national and international arena.

Its objective is to build capacity in science and engineering by means of information-sharing through publicly accessible quality information, free on-line applications and professional communications.

Technically it is placed in the wider water sector with the main focus on agricultural water management, irrigation, drainage, hydrology and related fields.

These areas are supported through Sakia.org services such as:

- **IRRIGATION-L** - professional discussions on irrigation and hydrology related topics;
- **VL Irrigation & Hydrology** - quality full text information on-line accessible for free;
- **e-Journal of Land and Water** - professional open access publishing on-line;
- **IRRISOFT** - quality software information and on-line applications, and
- **Miscellaneous services** - e.g. newsletter, Sakia.org e-publish, and more.

Sakia.org - sponsoring & donations

Building capacity in science and engineering by means of professional information-sharing.

Description

Sakia.org is a widely used free and independent information and communication service in the area of 'land and water'. It is well established since 1994/95 and frequently visited by professionals from the national and international arena from more than 160 countries and territories worldwide. Its objective is to build capacity in science and engineering by means of information-sharing through publicly accessible quality information, free on-line applications and professional communications.

Technically it is placed in the wider water sector with the main focus on agricultural water management, irrigation, drainage, hydrology and related fields.

Funding and co-operation support

Sakia.org relies on external funding for its operation. Costs evolve not only from server hard and software, maintenance and access, but to a great extent also from time involved in content acquisition, screening, reviewing, management, preparation of content and communications within and outside the community.

Supporters are invited to actively foster the Sakia.org initiative by either contributing to it professionally, promoting the services in the science community and the public arena or by providing financial support to assure its

development and continuation into the future. The site objective and content provided will however remain independent and unbiased. The following general funding and financial co-operation options exist for Sakia.org and its integrated sub-services. Support may be provided through:

- Donations
- Sponsoring
- Project funding

Other opportunities for non-financial co-operations exist in a manifold way. Please ask for details.

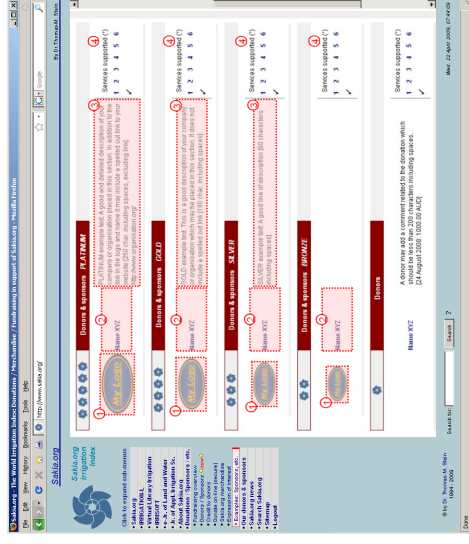

Sponsoring and donation details

To give credit to donors and sponsors who have provided crucial financial assistance in developing and maintaining this site a special donors' and sponsors' page has been created within the Sakia.org site. Entries are categorised according to the type of contribution into *PLATINUM*, *GOLD*, *SILVER* and *BRONZE*, providing scaled space for the organisation or company details. A donors' sections is also included. Provision has been made to include the logo, a link, the name and description text. In addition an indication may be given towards which Sakia.org related service or services the support is being directed.

A scrolling and clickable button depicting the donors' and sponsors' logos or names has been placed on the main entry pages at Sakia.org. It will clearly draw the user's attention to the Sakia.org donors and sponsors and will provide clickable access to the donors' and sponsors' details.

Sponsoring rates

Please contact the office for details on sponsoring rates or to discuss custom pricing options.

Display sections for donors and sponsors highlighting the space dedicated.

Sponsors & donors display details

	Logo section	Name section	Description section
	[1]	[2]	[3]
PLATINUM	Image & link - 116 x 60 pix.	Name & link ≤ 50 ch. - 120 x 54 pix.	Descrip. & pr link ≤ 250 ch. - 360 x 82 pix.
GOLD	Image & link - 100 x 50 pix.	Name & link ≤ 50 ch. - 120 x 54 pix.	Description ≤ 180 ch. - 360 x 50 pix.
SILVER	Image & link - 84 x 42 pix.	Name & link ≤ 50 ch. - 120 x 54 pix.	Description ≤ 80 ch. - 360 x 42 pix.
BRONZE	Image & link - 68 x 36 pix.	Name & link ≤ 50 ch. - 120 x 54 pix.	
DONOR		Name spelled out ≤ 50 ch. - 120 x 54 pix.	Donor's comment ≤ 200 ch.
